## \_\_\_\_ THE PRODUCTION

The multi-award winning *Arcadia*, (Best New Play – Olivier Awards, Best Play – Tony Awards) premiered in 1993. Through a mix of comedy and scientific discussion, moving through the past and the present, order and chaos, Stoppard created a work that some critics claimed to be his best yet at the time. It illuminates dense mathematical subjects through the portrayal of the characters' lives – a young woman and her tutor, and a historian following the trail of a hermit.
